## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-23 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Weinert'425 substantially for the reasons of record.

Applicants amendments and remarks submitted in their last response have been fully considered. Applicants have mainly argued that the prior art teaches structure wherein the carrier is pre-coated with a separating agent that later dissolves. In response, the examiner submits that it is reasonable to understand applicants claims disclosing layers as in the prior art. There is nothing precluding applicants material to "separate later". Also, the meaning of the "directly on the carrier" is not clear as to whether another intervening layer is precluded, since the claimed language is open to additional elements.
